According to the 2017 Greater Los Angeles Homeless Count, 40% of people experiencing homelessness in LA County are Black, although Black people make up only 9% of the county's total population. The Los Angeles Homeless Services Authority (LAHSA) Ad Hoc Committee on Black People Experiencing Homelessness will examine the barriers Black people may face when trying to exit homelessness by accessing services and affordable housing. You are invited to participate in this work by attending a community listening session and sharing your ideas and perspective.
