Greater Los Angeles 2019 Homeless Count Results:

Agoura Hills

Estimated total number of persons experiencing homelessness during the PIT Count:

0 people

There were zero people recorded unsheltered on the night of the PIT Count.

There were zero people recorded in shelters on the night of the PIT Count.

Sheltered and Unsheltered population PIT estimates 2016–2019

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.
Greater Los Angeles 2019 Homeless Count Results: Arleta

Estimated total number of persons experiencing homelessness during the PIT Count:

90 people (100% Unsheltered, 0% in shelters)

Of the 90 people unsheltered on the night of the PIT Count,

- 14.5% Persons in Cars (N=5.6)
- 6.3% Persons in Vans (N=11.1)
- 12.4% Persons in RVs or Campers (N=23.7)
- 32.3% Persons in Makeshift Shelters (N=28.9)
- 26.5% Persons in Tents (N=7.2)
- 8% Persons on the Street (N=13)

There were zero people recorded in shelters on the night of the PIT Count.

Vehicles and dwellings counted

- 4 Cars
- 7 Vans
- 14 Campers/RVs
- 6 Tents
- 19 Makeshift shelters

Sheltered and Unsheltered population PIT estimates 2016–2019

- 2016: 10 Sheltered, 73 Unsheltered
- 2017: 0 Sheltered, 67 Unsheltered
- 2018: 0 Sheltered, 77 Unsheltered
- 2019: 0 Sheltered, 90 Unsheltered

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

Greater Los Angeles 2019 Homeless Count Results:

Hansen Dam

Estimated total number of persons experiencing homelessness during the PIT Count:

60 people (100% Unsheltered, 0% in shelters)

Of the 60 people unsheltered on the night of the PIT Count,

- Persons in Cars (N=1.4)
- Persons in Vans (N=0)
- Persons in RVs or Campers (N=28.8)
- Persons in Tents (N=12)
- Persons in Makeshift Shelters (N=6.1)
- Persons on the Street (N=12)

There were zero people recorded in shelters on the night of the PIT Count.

Vehicles and dwellings counted:

- Cars: 17
- Vans: 10
- Campers/RVs: 4

Sheltered and Unsheltered population PIT estimates 2016–2019

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.

Greater Los Angeles 2019 Homeless Count Results:

Porter Ranch

Estimated total number of persons experiencing homelessness during the PIT Count: 3 people (100% Unsheltered, 0% in shelters)

There were 3 persons in RVs or Campers on the night of the PIT Count.

There were zero people recorded in shelters on the night of the PIT Count.

Vehicles and dwellings counted

2

Sheltered and Unsheltered population PIT estimates 2016–2019

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.
Greater Los Angeles 2019 Homeless Count Results:
Reseda

Estimated total number of persons experiencing homelessness during the PIT Count:
137 people (100% Unsheltered, 0% in shelters)

Of the 137 people unsheltered on the night of the PIT Count,

- Persons in Cars (N=22.7)
- Persons in Vans (N=17.4)
- Persons in RVs or Campers (N=37.3)
- Persons in Tents (N=4.8)
- Persons in Makeshift Shelters (N=10.7)
- Persons on the Street (N=44)

There were zero people recorded in shelters on the night of the PIT Count.

Vehicles and dwellings counted:
- Cars: 16
- Vans: 11
- Campers/RVs: 4
- Tents: 7

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

Greater Los Angeles 2019 Homeless Count Results:
Sylmar

Estimated total number of persons experiencing homelessness during the PIT Count:

311 people (92.3% Unsheltered, 7.7% in shelters)

Of the 287 people unsheltered on the night of the PIT Count,

- Persons in Cars (N=45.7) 18.1%
- Persons in Vans (N=41.2) 15.9%
- Persons in RVs or Campers (N=113.6) 9.1%
- Persons in Tents (N=8.4) 2.9%
- Persons in Makeshift Shelters (N=26.1) 9.1%
- Persons on the Street (N=52) 39.6%

Of the 24 people in shelters on the night of the PIT Count, 100% were in Transitional Housing.

Vehicles and dwellings counted

- Cars: 32
- Vans: 26
- Campers/RVs: 7
- Tents: 17
- Makeshift shelters: 67

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.

- 25 – 54: 58.9% (N~47)
- 55 – 61: 16.8% (N~13)
- 62+: 8.6% (N~7)
Greater Los Angeles 2019 Homeless Count Results:
Van Nuys

Estimated total number of persons experiencing homelessness during the PIT Count:
765 people (89.3% Unsheltered, 10.7% in shelters)

Of the 683 people unsheltered on the night of the PIT Count,

- Persons in Cars (N=70.2)
- Persons in Vans (N=57)
- Persons in RVs or Campers (N=203.1)
- Persons in Tents (N=69.5)
- Persons in Makeshift Shelters (N=115.4)
- Persons on the Street (N=168)

Note: Persons in Emergency Shelter (N=22) and Persons in Transitional Housing (N=60) are included in the sheltered population.

Of the 82 people in shelters on the night of the PIT Count,

- Persons in Emergency Shelter (N=22)
- Persons in Transitional Housing (N=60)

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.
