Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.

There were zero people recorded in shelters on the night of the PIT Count.

Vehicles and dwellings counted

- Cars: 26
- Vans: 3
- Campers/RVs: 4
- Tents: 7
- Makeshift shelters: 0

Sheltered and Unsheltered population PIT estimates 2016–2019

- 32 Sheltered in 2016
- 41 Sheltered in 2017
- 0 Sheltered in 2018
- 0 Sheltered in 2019
- 74 Unsheltered in 2016
- 41 Unsheltered in 2017
- 45 Unsheltered in 2018
- 74 Unsheltered in 2019

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

Sheltered and Unsheltered population PIT estimates 2016–2019

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.

- Campers/RVs: 111
- Tents: 7
- Makeshift shelters: 22

Note: Some data are excluded from totals, specifically unsheltered unaccompanied minors (under 18 years old), unsheltered transitional age youth (18 – 24 years old), persons in domestic violence shelters, and persons receiving motel vouchers.

Unsheltered: The total number of people experiencing homelessness who slept on the street or in a dwelling not meant for human habitation was estimated for each dwelling type (car, van, camper/RV, tent, or makeshift shelter) and at the SPA-level for individual and for family households. 3,873 demographic survey interviews were conducted with persons experiencing unsheltered homelessness from December 2018 to March 2019 to describe the population’s demographics and approximate the number of people in each dwelling.

In shelter: The total number of people experiencing homelessness who slept in an emergency shelter, transitional housing, or safe haven program was reported to LAHSA by each provider and assigned to a census tract.

Sheltered and Unsheltered population PIT estimates 2016–2019

The city and community level data was refined based on community requests so that the data are more precisely mapped to the political boundaries of cities, and the historical data was amended accordingly.
Greater Los Angeles 2019 Homeless Count Results:
Willowbrook
Service Planning Area 6 demographics summary
